ILLINOIS COLLEGE OF OPTOMETRY LIBRARY

# VisionCite:

## VISION LITERATURE JOURNAL ARTICLE CITATION INDEX

**ICO**

**Library Director**  
[icolibrary@ico.edu](mailto:icolibrary@ico.edu)

**VisionCite** is a citation database index of vision-related journal articles developed by the Illinois College of Optometry Library.

Over **313,000 articles** from medical, ophthalmic, optic, optometric, and vision-related journals that are currently received in the ICO Library are indexed and are available to search.

The ICO Library keeps the **VisionCite** database current by regularly indexing over **114 vision-related journals**.

It is recommended that **VisionCite** is used in conjunction with PubMed (Medline). This will enable more complete access to both vision-related historical journal articles, AND current journal information.

## SEARCH RESULTS

### SEARCH RETRIEVAL TECHNIQUES FOR VisionCite:

- SAME** This is the search default Use all words in the same paragraph
- AND** Use to shrink or narrow a search
- OR** Use to expand a search to include related terms
- NOT** Use to eliminate topics or items already viewed
- ADJ** Use to find words adjacent or next to each other
- NEAR** Use to find words in the same paragraph
- \$** Truncation symbol

### SAMPLE SEARCH STRATEGIES FOR VisionCite:

- Driving **AND** vision
- Color **OR** colour
- Vision **NOT** visual
- Vision **ADJ** therapy
- Retinal **NEAR** detachment
- Amblyop**\$**
- (Contact **ADJ** lens**\$**) **AND** Smith

### SAMPLE OF SEARCH RESULTS (smith **AND** lenses):
